Objects, Blocks & Stitches Editing

Created designs can be fully edited within this single application. It refers to both embroidery objects, vector objects and raster images (no need to switch to other applications).

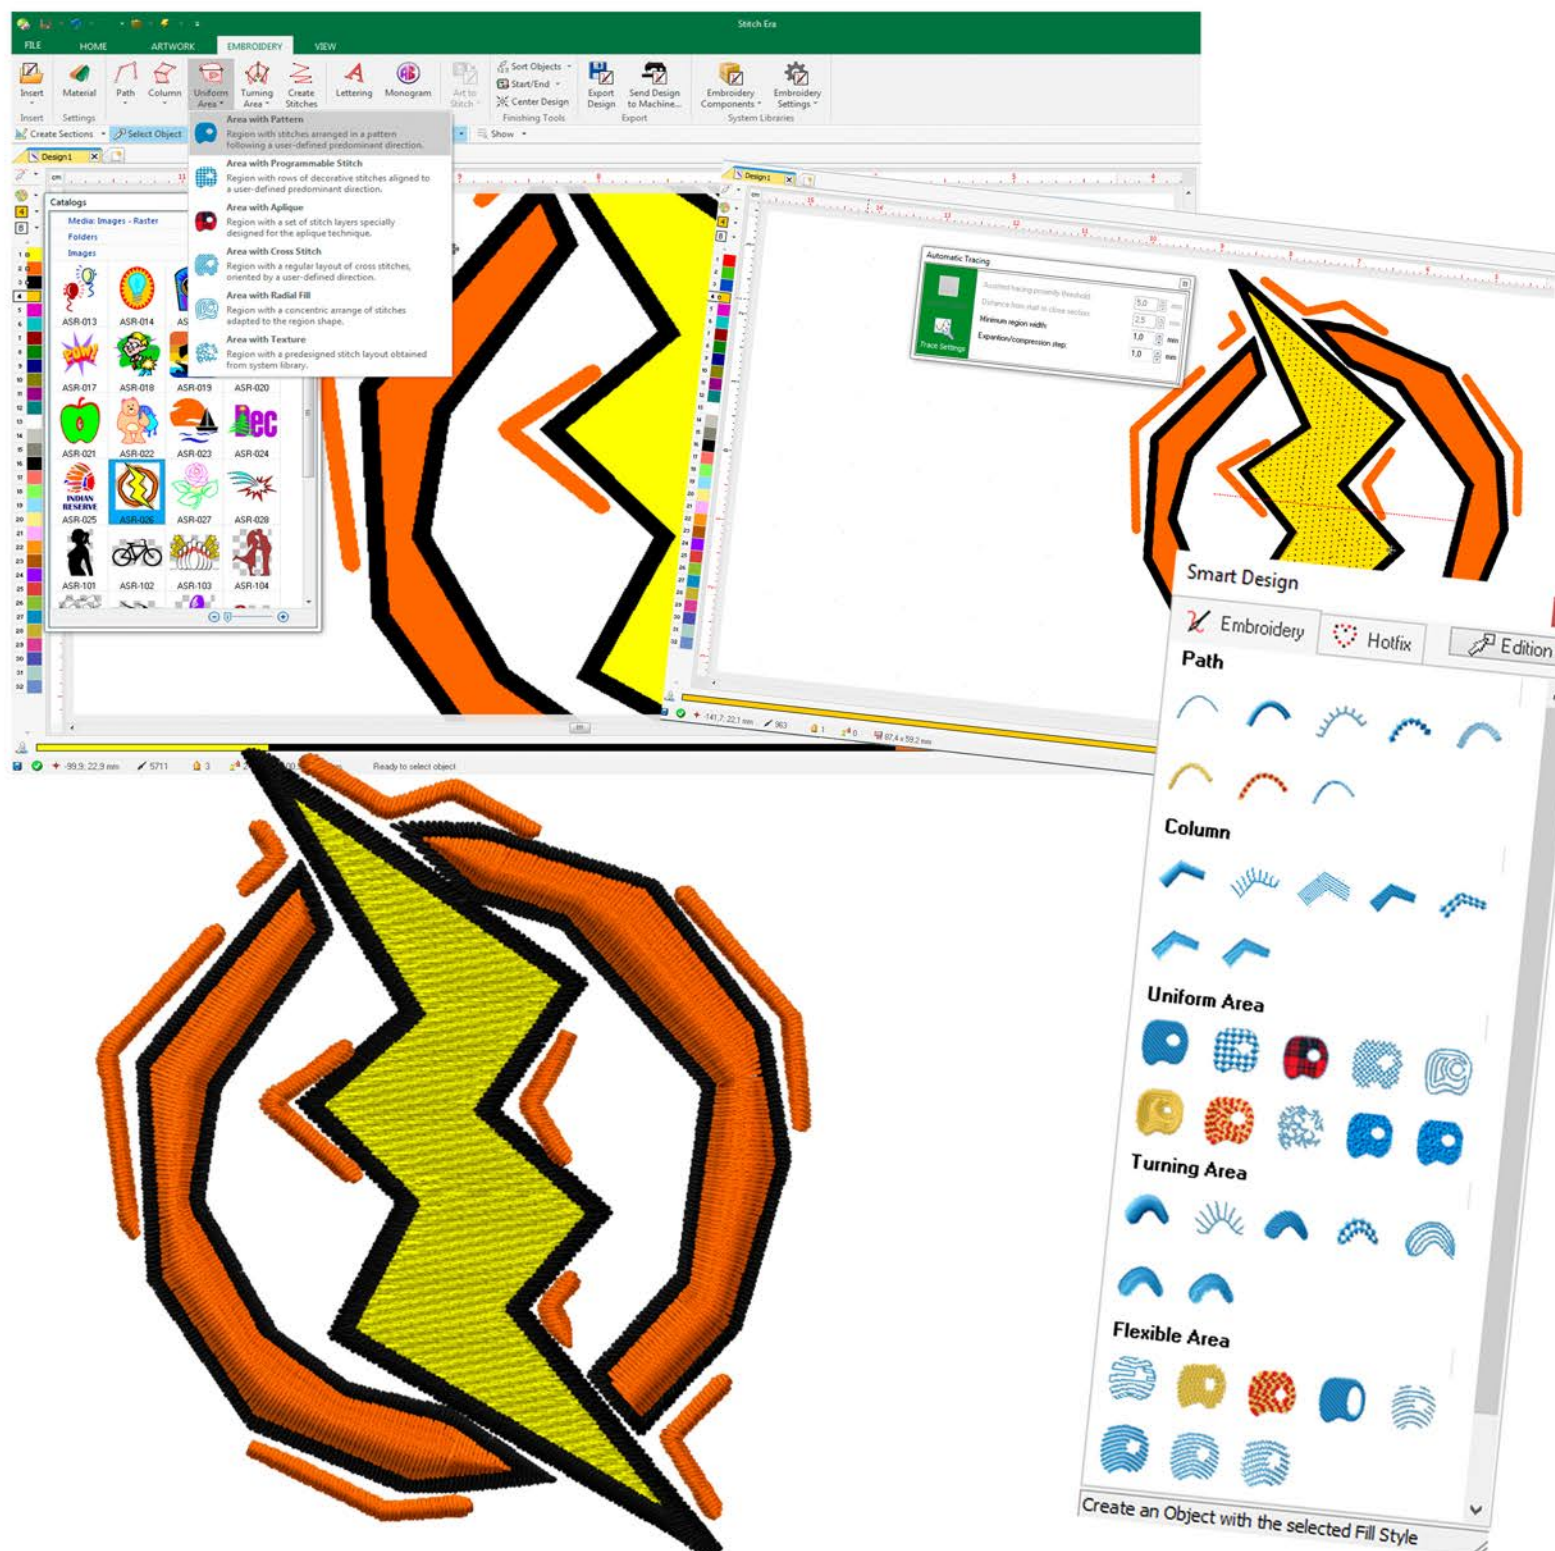

Object Editing: Users can change shapes, fill styles, components, object properties and elements.

Block Editing: Users can change the size and position and the sequence of objects or blocks.

Stitch Editing: Users can edit each stitch of the design or a group of stitches (Stitch Editing).

FEATURES	EXP	STD	LTY
